The Beneteau 34.7 Willyama is a yacht designed by Bruce Farr as a graceful and powerful cruiser-racer. This model was produced by Beneteau between 2005 and 2009 with 125 hulls completed. Conceived to perform with a fractional sloop rig, T-shaped keel with bulb and spade rudder, she offers excellent upwind ability. Her accommodation is thoughtfully arranged for both crew racing and coastal cruising. The 34.7 offers a racer's heart but with the amenities and durability to enjoy time aboard in comfort. In 2018 she underwent a major overhaul where her rudder was upgraded to a deeper Farr-designed Carbon rudder with stern fairing, the rudder bearing was replaced, instrument wiring replaced, and Vang support also new. She has an excellent sail wardrobe a clean hull and ultimately she is awaiting new owners and adventures.
