

Farr 1220

The 1220 is a fast cruising sloop from the board of Bruce Farr . They were built by McDell marine from the mid eighties through till 92. Revolutionary in concept as they offered in a 40' Yacht a layout and quality which still remains a benchmark for the boats of today. Easy to handle mast head rig. A moderate fin keel and a spade hung rudder. Farrocious is a one owner boat. She is in need of some cleaning up. But the price will make her a compelling boat to consider.
