No Ties presents like a new boat and is an incredible opportunity as these exceptional yachts rarely come to the brokerage market. She was shipped to New Zealand in 2018 after completion and her owners have enjoyed exploring New Zealand and the Pacific before arriving at their private island in Vanuatu where she is now located.

It is an incredible, custom built yacht which has lots of extra features to make your sailing even more comfortable. The front saloon windows open fully to give maximum ventilation. Special design of bimini provides perfect space regardless of the weather and she is easy to sail single handed because of the self-tacking jib and other hydraulic controlled sails. Technology on the boat allows you to sail the boat from your smartphone or tablet, very handy for night sailing. No Ties has the best design for shorthanded luxury cruising and believe us – we have seen a lot!
