

Hoek Classic 78ft Ketch

Tanielle is an Elegant Classic She was just launched in Sydney, after fitting the keel.

This very special "in-built" sailing yacht is a true world cruiser, constructed entirely from Duplex Stainless-Steel (SAF 2205- Duplex). To be rigged as a ketch, she is set up for short-handed cruising in style, comfort and safety.

Tanielle has been designed by famous classic sailing yacht designer Andre Hoek and built to Lloyds. The hull shell varies in thickness from 6-10mm depending on the loads in certain areas and impact strength requirements but suffice to say Tanielle is a perfect exploration yacht for all regions of the world including the Arctic and Antarctic. This is a unique opportunity to purchase a new yacht completed to a very high standard (mast, rigging and sails not included).
