Tanielle is an Elegant Classic and ready for launch 2021!

This very special "in-built" sailing yacht is a true world cruiser, constructed entirely from Duplex Stainless-Steel (SAF 2205- Duplex). To be rigged as a ketch, she is set up for short-handed cruising in style, comfort and safety.

Tanielle has been designed by famous classic sailing yacht designer Andre Hoek and built to Lloyds certification. The hull shell varies in thickness from 4-10mm depending on the loads in certain areas and impact strength requirements but suffice to say Tanielle is a perfect exploration yacht for all regions of the world including the North and South Pole! This is a unique opportunity to purchase a new yacht completed to a very high standard, but with plenty of scope to personalise. The interior has completed forward and aft accommodation spaces, but the saloon and galley area amidships remain a blank canvas with several layout options.
