

## Lotus 10.6

### General Specs

Length	10.60 m
Bram	3.52 m
Draft	1.57m
Year	1982
Location	Sydney, NSW
Price	\$ 79,500

Lotus 10.6 sailing cruiser. Ordered from the factory and delivered in 1982 she still is under the care of her original owner who has been loathe to put any screws into the beautiful timber interior so she still looks like the day she was delivered. The original cushions show no water marks or stains. Chainplates are shiny stainless and the portlights are clear. The 20 HP Yanmar has been lovingly managed and maintained and performs admirably. An Alan Wright design that is fast and seaworthy and with a quality New Zealand build. Step back in time to when boats were made by craftsmen with the best materials available but before electronics took over. Take navionics on an ipad and go coastal cruising with all you need.
