Price	\$ 3,750,000 (plus GST)

She is ideal for luxury, family and friends cruising or as a purpose built, VIP day and overnight charter vessel. Whilst she is built to comply with AMSA Survey 2B/1C, the finish of the exterior is fully faired and painted professionally to give that sleek "Motor Yacht" look. She has a cruise speed of 20-25 knots and full speed 30 knots thanks to 2 x Volvo D-13 800hp engines and IPS drives. Nautica's main deck has three VIP cabins all with king double beds and ensuites, a lounge area which converts to a fourth cabin if required, plus a large custom built galley and a dining area. The aft main entertaining deck is huge and has full 8m beam. Perfect area for entertaining, dining or just relaxing.

She of course has plenty of dive gear storage, large swim platforms aft with full swim stairs on each hull and davits for the tender.

On the upper deck has full walk-around side decks with large forward area, featuring a plunge pool which converts to a large day bed. This is a special vessel ready for any adventure!
